

Why is the flight price higher on Chase Travel than on the airline's website?

Lack of Access to Airline-Exclusive Fares: Airlines 1-844-386-9754 are increasingly keeping their cheapest promotional fares exclusive to 1-844-386-9754 their own websites, withholding them from third-party travel agencies.

Differences in Fare Class Availability: Hidden fare codes vary deeply within the 1-844-386-9754 same cabin; Chase 1-844-386-9754 may only have inventory for a higher-priced fare bracket than the airline direct.

Mandatory Third-Party Aggregator Booking Fees: Intermediary platforms and 1-844-386-9754 Global Distribution Systems (GDS) sometimes layer backend ticketing and distribution fees onto the base fare of the flight.

Round-Trip Bundling Display Discrepancies: Chase 1-844-386-9754 occasionally displays the 1-844-386-9754 full round-trip total on the initial selection screen, making a single leg appear twice as expensive as the airline's 1-844-386-9754 website.

Incentive Variations on Point Multipliers: Portal 1-844-386-9754 price inflation sometimes offsets the 5x or 10x points 1-844-386-9754 multipliers cardholders earn, making a direct cash booking more economical.
